## PROJECTS

### Blockchain-Based Fundraiser Application [\(Link\)](#)

- It is a blockchain-based fundraising platform to enhance transparency and efficiency in donation management. Leveraged smart contracts for secure and automated fund distribution. Built a user-friendly interface and integrated secure payment gateways to optimize the donor experience. – HTML | CSS | Bootstrap | JavaScript | Blockchain | Python | Django | MySQL

### MyPortfolio [\(Link\)](#)

- A personalized and professional website that serves as a digital resume and a platform to showcase my skills, work, and achievements. – HTML | CSS | JavaScript | Bootstrap

### CareerPaths [\(Link\)](#)

- The CareerPaths landing page project aims to create a visually appealing and informative webpage that serves as the entry point for a website or a specific marketing campaign for the Learning Platform. The landing page aims to capture visitors' attention and provide concise information about the services and courses we offer. - HTML | CSS | JavaScript | Bootstrap
